EDUCATION

BA Hons Graphic Design

Northumbria University - 2017 to 2020

EXPERIENCE

UX Designer - DEF Software

2020 - Present

- Designed the B2B data-dense web application replacing the companies legacy software used by 45% of UK authorities and all of Northern Ireland
- Ran UX workshops, usability testing and interviews for the project
- Worked closely with developers and collaborated directly with stakeholders.
- Designed and prototyped new online registers for authorities, helped pilot new ideas with funding for DHLUC
- Rebranded the company's online presence, user groups and external corporate events.

Assistant Designer - R.G.B Media

2019 - 2020

- Assisted in designing client projects. Helped the company pitch new ideas.
- Directly involved with advocating the company's UX process to clients.
